Interesting History and Recent Progress Of The Mt. Zion Church

Looking back over 41 years for a brief glimpse of the church at Mt. Zion, which was organized in 1900, and later called the Church of the Nazarene. There were about 20 charter members, a few of whom we recall, namely: Grandpa and Grandma A. H. West, Aunt Bates or Mrs. Louise Bates; Mr. and Mrs. P. Jameson, Mr. William Flannigan, Mrs. Shell, Bro. and Sister C. W. Morris. Several of these we remember from our childhood as examples of the highest type of Christianity. Their influence lingers on. One surviving charter member, Mrs. P. Jameson, is still after 41 years, an active and devoted member.

The church was organized and dedicated by Sister Harris, now Rev. Mrs. Cagle, who with her husband, Rev. H. C. Cagle, were co-pastors in 1939 and 1940, of our Mt. Zion church.

Bro. and Sister Cagle are not retired but resting at their beautiful little white cottage home, which is surrounded with stately live oak trees in the picturesque hills of Buffalo Gap, Texas.

Our Sunday School and church attendance have decreased considerably because many people in our community have been ill with flu. We had 48 in Sunday School last Sunday. Possibly some who are not ill are negligent. We hope you will go to church service somewhere next Sunday and Mt. Zion always has a welcome for you. Sunday School at 10.

Our new pastor, Rev. Eugene Wood, brings inspiring messages. He has been ill but so far has not missed a preaching service.

For the first time in the history of the Mt. Zion church, we have, under the direction and leadership of Mrs. Eugene Wood, organized a Woman's Foreign Missionary Society. We have 12 members and each one seems anxious to learn all possible about India, as that is now our subject. We will meet Thursday afternoon, Feb. 6, at 3:00. All visitors are gladly received in our circle and all members are urged to be present at 3:00 P. M. Mrs. Wood is our Supt. of study, also our District Native Worker secretary. She has had much experience in this line of work; makes very interesting and appealing talks. Come hear her. Sunday evening 7:30, Feb. 2, in our special missionary program.

Mt. Zion is to be honored with the presence of Rev. and Mrs. K. Hawley Jackson, furloughed missionaries from India. They will be with us for only one service, which will be Thursday, Feb. 6, at 7:30 P. M. You will be the poorer if you fail to hear them and richer if you do hear them.

Jones County Cotton Gins Have Put Out 50,300 Bales Cotton

As the cotton season for 1940 extends into 1941 it becomes more apparent that a great crop was made and is not yet all gathered.

The official count as revealed by the Bureau of the Census, as of Jan. 23, 1941, shows that the Jones County gins reported a total of 50,300 bales up to January 16, 1941. This is in comparison to 24,091 bales for the same date of 1940.

A survey of Jones county shows that perhaps cotton pulling will not be finished even in this pretty weather of January, and will likely extend up into February. The final count of the crop will be taken on March 1st.

Dr. McCrary, Dentist Opens Modern Office On Rotan Road Street

The many friends of Dr. Joe McCrary will be glad to know that he is getting back into his dental practice in Hamlin and into a new, ultra modern office.

His new place is located on 5th Street (Rotan Road) just one location west of intersection of Highway 83 and 92. He has purchased the west half of the corner lot, and has moved a four-room house residence from South Hamlin to this place and fitted it out in the most convenient and attractive way.

Dr. Joe has landscaped the grounds, built walks, painted his office snow-white, erected venetian blinds, installed automatic heating, fitted out one large reception room, lighted with florescent glow, arranged a large reserve room for use of patients who may need rest after treatment, has ample storage room, a large glassed-in laboratory room, two dental chair rooms, and the latest electrical equipment. The whole setup seems ideal from every angle. The office is where there will always be close up parking room. Ideal for either rural or town people, coming from four directions on paved highways.

Dr. McCrary spent a hectic year in 1940, one feature of which was a big fire that damaged the building in which he had his office. It looks now like 1941 will mean a restoration of all that he had in the years past.

Moved To Gorman

The Herald has a letter from W. A. O'Neal, who till a few days ago had lived in the Flat Top community the past nine years. They moved last week to Gorman to make their home, again with old friends.

But let's see what Mr. O'Neal says in his letter:

Dear Editor:

After dreading the move so much we arrived o. k. Saturday night; though sleepy and tired. It was 11:45 o'clock when the last truck unloaded. Only one tea glass was broken. Two families were here to meet us. We feel lucky, although Nancy took the flu Saturday night and has been in bed since. Don and Fannie Bell started to school yesterday. They are thrilled over the well by the yard gate; keep plenty of water pumped when here. Sunday was a busy day, though one of my cousins and wife were here to help all day.

We wish to thank our friends who bought our cows, feed and canned fruit and assisted in loading Saturday. Especially Johnnie Hines and wife, Mrs. Brady and Henry, Mrs. Doyle, Roy Bruner, wife and son, L. B.; Eddie Boren and family, also to Wesley Neidecken and the truck drivers. Also to Larry Holmes and wife who have bought the farm where we resided for the last nine years. We could not move earlier on account of sickness the last two weeks.

Don't fail to send us the Herald as we can't get along without it. We will be anxious to hear every week from our Hamlin friends. Nancy missed gathering news as we were real busy last week. She enjoyed working with you and the Hamlin Herald force. Look for a box of peanuts next harvesting season.

Your Gorman friends,
THE W. A. O'NEALS

NOTE: The Herald will miss Nancy O'Neal's weekly letters from South Side and Flat Top communities. Miss Nancy has the making of a real newspaper correspondent.

Two more shows. One starts this Friday afternoon at 2:00.

The last one starts Friday night at 7:30 o'clock.

It is a great show in technicolor.

CHURCH OF CHRIST

Our life here is very short. Our achievements here are only temporary. The days may seem long while we are children looking toward the future, but we see that they were only brief moments as we grow older and look back upon them.

"A day to childhood seems a year,

And years like passing ages;

But the more we live, more brief appear

Our life's succeeding stages."

Our life is short, temporary, and uncertain. James 4:14 " . . . For what is your life? It is even a vapor that appeareth for a little time and then vanisheth away."

Why not prepare to live with God in heaven forever. You can do it by obeying God — living a Godly, Christian life. Mt. 7:21 "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my father which is in heaven."

We were glad when one placed membership with us last Sunday.

What DO YOU Think?

0-0-0-0

SO OFTEN we hear a person speak out impulsively and say "What do YOU think about so and so ...?" The remark is not so much to get what the "other fellow" thinks about some certain thing here in Hamlin or something that is world-wide, but to get himself started off on what HE thinks.

NOW WHAT DO YOU THINK? and if you think, would you like for it to be printed with your name right down there under it? What do you think about that?

CRACK DOWN BROTHER, or maybe Sister, don't you want to "Think Out Loud Too?" So if you want to let off some of your steam—make it in puffs in batches of not more than about 10 or 20 lines. It might be good. What do you think?

FOR EXAMPLE, what do you think about our congress calling in Tom, Dick and Charles A. Lindbergh to ask them "What do you think?" This reminds us of a story, said to be true, about a certain business man of Hamlin, who was young and rollicky, and was appointed an important official in a Hamlin church. At prayer meeting one Wednesday night the doting pastor called on this fellow to lead in prayer. It was so shocking to him he forgot himself, lost his breath, and he says, "Hell that's what we are paying you for."

WE THINK the House and Senate Foreign Relations Committees did no one any good, except the Germans, Italians and a few Nazi sympathizing newspapers when they ask up-start Charles and a few

disgruntled "has-beens" to tell what they think and broadcast it to the world. What are we paying the congressmen for ... they know what they think and will do, why not ask just any-old-body? We think some of our so-called "getting public sentiment" is down right "plumb foolishness."

TRY THIS SOMETIME: Write out what you think on some subject some night just before getting into bed. Lay it aside and look at it the next morning. Read it out loud to yourself ... then if it still sings hot enough for you, sign your name to it. Chances are it's not so hot, and you will crush the paper in your clinched fist and throw it away. Try this scheme on the subjects of love and politics.

NOW HERE IS A GOOD ONE—What do you think about the many rumors that Hamlin labor must pay a \$100 or so fee, to get a job on the Camp Berkeley construction? Reliable information says that's true. Who gets the money, and wonder if that kind of hold-up is a healthy sign? It may all be true, and it's not in Denmark." Let's be liberal and grant that some assurance must be had before a workman is put on a job, that he knows his business, and should have some kind of test. Wonder how 100 bucks prove his workmanship?

SOMETIMES THERE IS A POP-OFF without knowing what and why—in such cases, those who KNOW should be liberal in criticism of those who say "I think."

MOST PEOPLE SAY they think the bright orange stripes on our curbs are just dandy and help make people park right. Most people think Hamlin looks better since we started a better system in parking. Just a few think they do not like to park right.

WE HEAR constant remarks and a lot of kicking about those "Peddling trucks" from Abilene, and some other towns, coming into Hamlin and stopping anywhere

they seem to take a notion. Some of them cut across, change ends, stand out in the way, look careless while they peddle. We can't see what right such peddlers have in Hamlin that a farmer with a cotton trailer can't use. Course it would be hard on a big buck to tug a crate of bottles more than a door or two. Hamlin's new traffic regulations are already worth much to Hamlin's safety, convenience and looks. If we want to keep it that way, and better, it is up to the citizens. What Do You Think?

Mrs. Claude Border who has been spending the past week with her aunt, Mrs. J. C. Harvey, left Tuesday for her home in La Grange, Ga. She had stopped in Hamlin on her way from San Diego, Calif., where she had visited with a sister, Mrs. Hope Phillips.

We call your attention to an ad in this week's Herald wanting to buy a book, "Cattle Industry, etc.,"

PARENTS GO TO SCHOOL

There was plenty going on at the high school last Friday evening. The P-T. A. had prepared a special program for the mothers and fathers. The parents assembled in the auditorium, where they were entertained by the Band and Glee Club under the direction of Mr. Clyde Smith. When the bell rang, the parents, following their children's schedule, attended their classes, with three minutes for each class.

In each room teachers in charge explained the work of the students, and the parents had an opportunity to see an exhibit of the work of the students.

The parents also visited the library and the art room, where interesting exhibits were on display. After forty minutes of class work, the parents and teachers were served coffee and cookies by Mrs. Tom Teague, chairman of the entertainment committee, who was assisted by Miss Camille Smyers and members of her home making classes.

Many of the students were amused as they observed parents running from room to room or up and down the stairs trying to find the various rooms. Both students and parents enjoyed the "Parents Go To School Night."

NATIONAL DEFENSE PROGRAM, IN HAMLIN SCHOOLS

The Hamlin Schools announce the beginning of a new course in co-operation with the National Defense Program. The course consists of four shop programs for out of school boys from the ages of seventeen to twenty-four inclusive. The programs are woodworking, auto-mechanics, sheet metal work, and electricity.

The school has temporary headquarters in the Fairy building, two blocks east of main street, and is under the direction of W. A. Blankenship. Tools for all the programs have been ordered and work is at present under way on the first course.

The organization of this school is as follows: M. F. Thurman, State Director; R. B. Mefferd, Area Supervisor; G. R. Bennett, Local Administrator; R. H. Campbell, Local Supervisor.

Vegetable Laxative Has Important Points

Most people want a laxative to do three things: (1) act punctually, (2) act thoroughly, (3) act gently.

Here's one that usually fills all three requirements when the easy directions are followed. It's an all-vegetable product whose principal ingredient has medical recognition as an "intestinal tonic-laxative."

That's the ingredient which enables BLACK - DRAUGHT to help tone lazy bowel muscles. It is the main reason for the satisfying relief from constipation that generally follows next morning when BLACK - DRAUGHT is taken at bedtime. The millions of packages used are proof of its merit.

Teddy Russell; Misses Marion Martin, Mildred Barrow and Gloria Stewart, students in John Tarleton College, spent a short vacation with home folks the past week. They were accompanied to Stephenville Sunday by Mrs. R. Y. Barrow and Mrs. Jess Corey.

ervisor; W. A. Blankenship, Instructor of Shop; and two townsmen and two farmers as a local Advisory Board.

In order to complete a course, a person must be in attendance at least one hundred and twenty hours or fifteen hours a week for eight weeks. Upon completion of a course, a person will receive a certificate, certifying that he has completed this course in a National Defense School. His name will be placed with an employment bureau and recommended for a job if he is well qualified.

At present the shop is operating twice a day, in the afternoon from one until five and from seven until ten at night. This gives those who work in the daytime an opportunity to go to school at night. At present there are nearly thirty members enrolled.

A BAND CONCERT TO BE GIVEN MONDAY EVENING

If you haven't heard the band lately, be sure to come to the high school auditorium, Monday night at 7:30 and enjoy some good music. Hamlin has a band now that can play equal to any heard over the radio and the members are going to prove it to you Monday night. Come and hear the best band Hamlin Hi school has ever had!

At the beginning of school last September there were only 43 members of the band. Now, since mid-term is over there is a total of 63 members. Eighteen of the new members came from grammar school, where Mr. Clyde Smith, the band director, has a grade school band. These pupils showed so much talent that he promoted them to the "A" band at mid-semester.

Jesse Neal McAllister, one of the Jones County boys, in the army camp at Brownwood, came up Sunday to visit his parents near Tuxedo and to see his grandmother, Mrs. J. D. Farrow in Hamlin. Jesse is accustomed to the open freedom of the Tuxedo plains and camp confinement and regulations are new.

R. L. (Jack) Rucker of Temple, has accepted a chair at the Imperial Barber Shop, taking the position held for so long by Arthur Burns, who has gone to California. Mr. Rucker is a brother of Mrs. Clayton Roberts. He is quite a "single" man, and possesses a "heart killing" smile and voice.

D. F. Griffin of Inks Dam, near Burnett, Texas, spent Sunday and the first part of the week with his mother, Mrs. D. F. Griffin. He also visited his sisters and brother in Abilene.

"GOING CONCERN VALUE"

... what is it worth to the customer?

IN the face of rising taxes and increased commodity prices, natural gas is STILL the least expensive item in the cost of running a household.

◆ Lone Star Gas System, of which your local gas company is a part, is an INTERCONNECTED pipeline system connected to more than 1,200 wells in 60 gas fields.

◆ The 4,700 miles of interconnected pipeline system of Lone Star Gas System extend into every proved major gas field in its territory, assuring its customers a dependable and adequate supply over a long period of years.

◆ Modern facilities of Lone Star Gas System include 21 giant compressor stations for supplying large quantities of natural gas from far distant fields to maintain dependable and uninterrupted service under any and all weather conditions.

◆ Pioneers in the development of natural gas in Texas, Lone Star Gas System is recognized throughout America for the high standard of its service.

WHEN you turn on a gas appliance in your home — to boil a pot of coffee — or cook a meal — or take a bath — or provide heat to protect your family's health and comfort against freezing temperatures — you do so with *faith that the gas will be there*. Such a feeling of security is actually CONFIDENCE IN THE DEPENDABILITY OF YOUR GAS COMPANY AS AN EFFICIENT "GOING CONCERN."

It is difficult to measure such a dependable "going concern" value in terms of dollars and cents. It is an item of safety and security that never appears on your gas bill for service rendered but is of untold importance to you throughout the years.

Today there are all kinds and grades of commodities and services on the market. Many are of full value. Others are not because they lack the assurance of dependability. Prices vary in direct proportion to quality and permanent satisfaction. In each case you usually get what you pay for.

Your grocer, baker, druggist; in fact, all business concerns, from their years of experience, know that "something just as good for less cost" is usually either temporarily distressed merchandise or an inferior product. There are no short-cuts to dependability and lasting high quality. This is true of gas service as in other items that make up the details of running a household.

POT SHOTS FROM M'CAULLEY

BY GEO. DARDEN

Mrs. John Frank Maberry is in a Rotan hospital, but is doing fine. Mrs. Maberry underwent a major operation last week.

The members of the Baptist church are sponsoring a farewell party for Rev. and Mrs. Hardesty Monday night.

Mrs. O. T. Hennington, teacher of the primary grades, along with her first and second grades, made a trip to Sylvester for a chapel program Thursday. Mrs. Hennington, with the little pupils, came back on the train, and what a treat it was. Most of them had never ridden on a train and they shall never forget the wonderful experience.

Mr. and Mrs. R. L. Miers attended the funeral of Mr. Headstream at Roby last Friday evening. Mr. Headstream was the father of Miss Mable Headstream, county treasurer.

Bill Pickron, another one of our citizens, has been employed at the Gyp mill.

This being Sunday night, this scribe has just arrived from Camp Berkeley. We manage to get home two or three times each week to learn the news, and from experience we can inform you that the camp is progressing nicely, in fact, it is hard to keep materials and a great num-

ber of employees were layed off Saturday and Sunday until more materials arrive. We have been transferred from time checkers department to the trucks, cars, machinery and equipment salvage department for the Construction Quartermasters.

We see a lot of the home town boys working down at Camp Berkeley and we are always glad to see the boys we know.

The Darden Cafe has been closed on account of our job at Camp Berkeley, however, it will likely be open within the next few days under new management, as a deal is in the making for sale or lease.

Mrs. S. E. Miers has been on the sick list for the past few days but is better at this writing.

Drilling will begin at once on a well to be located on Pink Maberry's place southwest of town.

Oil news is about all the talk in McCaulley, and all the natives still believe that this vicinity will be the next great boom.

Miss June Davison finished school at Denton last Friday and has already been employed as a teacher in the Gainesville high school.

Melvin Hunter has been on the sick list, however he is up and about town.

The McCaulley high school basketball girls' team defeated the Roby girls at Roby Saturday night.

A number of college kids were home over the week end, including Stanley Jackson, Buddy Boyd, June and Francis Davison, Walter Cypert and Marvin Davison.

Patricia Louise Rector has been ill with the flue but is improved.

0-0-0-0

Every American citizen should listen to Walter Winchell on his news broadcast, and we are sure that America would wake up to the fact that we have within our borders a great number of fifth columnists and plenty of un-American activities. Those of us who sincerely believe in our homes, our nation, our constitution, and the right to life, liberty and the pursuit of happiness should contact the proper authorities if and when we should see or hear anything that would be classed as un-American. Eventually, we may have to fight to defend our civilization and the future of our children depends on how we carry on.

BOYD CHAPEL School News

Last Wednesday the 22nd, the Wise Chapel basketball boys went to Anson and played the Anson Hi school juniors. The scores were 17 to 24, in Anson's favor. It was a swell game.

The volleyball girls went to the Plainview school and played ball on Thursday the 23rd.

Friday 24th, the volleyball girls went to Hamlin and played Hamlin's team. The score was 4 to 0 in our favor. Keep it up, girls.

We are selecting a play which the Wise Chapel outsiders are going to give in a few weeks.

We are expecting to receive the moving picture machine soon. Jones county rural schools now own their own projection machine which will circulate through the schools. We have already selected our films, and we intend to show them to the patrons of the community, and to use in our classrooms.

Hears Supt. Connell

The Boyd Chapel Parent-Teacher Association met Thursday night, January 23rd.

Mr. E. M. Connell, superintendent of Anson public schools, was the main speaker for the night. He discussed "The Twelve Year Plan of Education" and "The Benefit That P.-T. A. Has Been In Anson."

Mr. B. T. Beaver, Jones County superintendent of schools, came as a guest with Mr. Connell, and also said a few words.

A good crowd was present and the talks were very interesting and entertaining. Get Mr. E. M. Connell to tell you his latest joke, it's side-bursting.

"Build-Up" Important Protector of Women

A weak, undernourished condition often enables functional dysmenorrhea to get a foothold; thus leads to much of woman's suffering from headaches, nervousness, and other periodic discomfort.

CARDUI's principal help for such distress comes from the way it usually stimulates appetite; increases flow of gastric juice; thus aids digestion; helps build energy, strength, physical resistance to periodic pain for many.

Another way, many women find help for periodic distress: Take CARDUI a few days before and during "the time." Women have used CARDUI for more than 50 years!

What's Shipp's joke this week?

Hitson Women Start Demonstration Club

The club started mattress making January 22. There are sixty-three mattresses to be made. Forty-one have been finished. A comfort will be given with each mattress made. There will be another mattress
